

## OCL PE Curriculum: Intent

### **OAE PE Intent**

At Oasis Academy Enfield we intend to enthuse and inspire pupils to develop a lifelong love of physical activity, exercise, and sport. We will do this by educating pupils to understand and value the impact of developing and maintaining a healthy active lifestyle on physical, mental, social, and emotional health to ensure they have the tools to achieve good wellbeing and an active healthy lifestyle as adults.

The intent of our curriculum is to provide all pupils a platform to develop their self-efficacy, competence, and autonomy through the delivery of a broad, multifaceted curriculum which promotes numeracy, literacy, and our core values.

At KS3 each pathway will support pupils to develop their knowledge and skills to improve competence and confidence in a range of physical activities and sports.

At KS4 pupils will have the opportunity to choose their pathway: Sports Leadership or Physical Activity and Sports. Through each of these pathways' pupils will continue to embed the value of a healthy active lifestyle and be encouraged to develop their independence, leadership, and teamwork through collaboration.

During exam courses for both KS4 and KS5 we intend to embed academic and life skills that enable pupils to have the knowledge, skills, and work experience to have access to further and higher education or employment, if they so wish.

We intend for pupils to leave Oasis Academy Enfield as physically literate, knowledgeable, critical, and informed members of society with the relevant skills to be able to maintain in lifelong physical activity and succeed both academically and professionally.

Physical education should inspire students to become physically competent in a way which promotes lifelong physical activity. The Oasis Physical Education Curriculum will improve students' health and wellbeing through a holistic approach that allows them to flourish and become valuable members within their community. Students will be provided with opportunities to develop personally through a wide range of experiences. They will have opportunities to engage and excel in competitive sport, physical activities, and leadership, building character and embedding wider core values throughout.

## We Value character, competence and community in our curriculum:

- **Character:** Physical education can promote the holistic development of students, helping them to become better versions of themselves by emphasising moral traits such as respect and fairness. Within our LEARN assessment students will be encouraged to promote sportsmanship and fair play, students will develop good habits that will bring out the best in each other both inside and outside of sport and physical activity.
- **Competence:** Through our LEARN assessment students will be developing their competence withing physical education, which will improve confidence and provide students with the skills and knowledge to lead physically active lives. Physical education will ensure students aspire and take the next steps in their educational and personal challenges.
- **Community:** Through teamwork and opportunities to build character, physical education can foster a sense of belonging amongst students. Students learn how to work collaboratively in physical education which is embedded within our curriculum and LEARN assessment, developing leadership skills and helping students to create meaningful relationships and contribute to a positive community culture. Students will understand the pathways within community sport promoting lifelong physical activity. Through sport, students will recognise social and physical; barriers to sport within their community and wider topical issues, modelling the nine habits.

## Core concepts and principles of progression

The Oasis Physical Education Curriculum is sequentially planned so that the core and wider skills and knowledge required to be physically literate are developed over time.

- **Movement skills (Leadership & Excellence):** Students develop locomotor, non-locomotor, and object control skills, these are building blocks of developing physical literacy. The success of developing these skills can positively affect health throughout an individual's lifespan.
- **Health and fitness (Excellence and Aspiration):** Students will develop the knowledge and skills required to maintain and improve their health as part of their commitment to lifelong healthy choices. Teachers encourage the holistic development of students' health and wellbeing ensuring that physical education not only improves their physical development but their intellectual, emotional, social, and spiritual development. Students will be able to apply the key concepts and healthy eating model to their wider lives.
- **Technical skills (Leadership and Excellence):** Students learn the skills required to take part in wider range of sports, providing them with the necessary skills to be physically competent and, if they desire, to excel in their chosen sport(s).
- **Tactical knowledge (Leadership and Excellence):** Students learn how to select and apply appropriate tactics and apply these to the sport or situation they are in.
- **Leadership (Leadership, Resilience & Nurture):** Students will develop teamwork and communication skills that will encourage them to become effective leaders, they will foster leadership qualities through experiences and extra qualifications that will enable students to be active role models to others.

- **Tactical knowledge (Leadership and Excellence):** Students learn how to select and apply appropriate tactics and strategies and apply these to the sport or situation they are in.
- **Analytical skills (Leadership and Excellence):** Students will be able to identify strengths and areas for improvement in themselves and others, offering effective feedback to improve performance.
- **Sportsmanship (Resilience and Nurture):** Students will learn the importance of respect and fair play in sport, they will actively role model a positive sporting etiquette.
